275 Watt
POLYCRYSTALLINE SOLAR MODULE

Features

- **High module conversion efficiency**
  - Module efficiency up to 16.8% achieved through advanced cell technology and manufacturing capabilities

- **High PID resistant**
  - Advanced cell technology and qualified materials lead to high resistance to PID

- **Positive tolerance**
  - Positive tolerance of up to 5 W delivers higher output reliability

- **Suntech current sorting process**
  - System output maximized by reducing mismatch losses up to 2% with modules sorted & packaged by amperage

- **Extended wind and snow load tests**
  - Module certified to withstand extreme wind (3800 Pascal) and snow loads (5400 Pascal) *

- **Withstanding harsh environment**
  - Reliable quality leads to a better sustainability even in harsh environment like desert, farm and coastline

Certifications and standards: IEC 61215, IEC 61730, conformity to CE

--

**Trust Suntech to Deliver Reliable Performance Over Time**

- World-class manufacturer of crystalline silicon photovoltaic modules
- Unrivaled manufacturing capacity and world-class technology
- Regular independently checked production process from international accredited institute/company
- Tested for harsh environments (salt mist, ammonia corrosion and sand blowing testing: IEC 61701, IEC 62716, DIN EN 60068-2-68)***
- Long-term reliability tests
- 2 x 100% EL inspection ensuring defect-free modules

**Industry-leading Warranty based on nominal power**

- 97.5% in the first year, thereafter, for years two (2) through twenty-five (25), 0.7% maximum decrease from MODULE’s nominal power output per year, ending with the 80.7% in the 25th year after the defined WARRANTY STARTING DATE.****
- 12-year product warranty
- 25-year linear performance warranty

---

**Special 5 busbar design**

- The unique cell design leads reduction in electrodes resistance, shading area and raise in conversion efficiency. Residual stress distribution can be more even, reducing the micro-cracks risks. Make the solar cell more durable and reliable.

**IP68 Rated Junction Box**

- The Suntech IP68 rated junction box ensures an outstanding waterproof level, supports installations in all orientations and reduces stress on the cables. High reliable performance, low resistance connectors ensure maximum output for the highest energy production.

---

* Please refer to Suntech Standard Module Installation Manual for details.  **PV Cycle only for EU market.

©Copyright 2017 Suntech Power
Excellent performance under weak light conditions: at an irradiation intensity of 200 W/m² (AM 1.5, 25 °C), 96.5% or higher of the STC efficiency (1000 W/m²) is achieved.

### Mechanical Characteristics

- **Solar Cell**: Polycrystalline silicon 6 inches
- **No. of Cells**: 60 (6 x 10)
- **Dimensions**: 1650 x 992 x 35mm (64.96 x 39.1 x 1.4 inches)
- **Weight**: 18.3 kgs (40.3 lbs.)
- **Front Glass**: 3.2 mm (0.13 inches) tempered glass
- **Frame**: Anodized aluminium alloy
- **Junction Box**: IP68 rated (3 bypass diodes)
- **Output Cables**: TUV (2Pfg1169:2007) 4.0 mm² (0.006 inches²), symmetrical lengths (+) 1000mm (39.4 inches) and (+) 1000 mm (39.4 inches)
- **Connectors**: MC4 compatible

### Temperature Characteristics

- **Nominal Operating Cell Temperature (NOCT)**: 45±2°C
- **Temperature Coefficient of Pmax**: -0.41 %/°C
- **Temperature Coefficient of Voc**: -0.33 %/°C
- **Temperature Coefficient of Isc**: 0.067 %/°C

Information on how to install and operate this product is available in the installation instruction. All values indicated in this data sheet are subject to change without prior announcement. The specifications may vary slightly. All specifications are in accordance with standard EN 50380. Color differences of the modules relative to the figures as well as discolorations of/in the modules which do not impair their proper functioning are possible and do not constitute a deviation from the specification.
